

Lynne Powell - Associate Case Manager

Lynne is based in South Cheshire and gained her Registered Nursing Qualification in 2009. Prior to joining AJ Case Management, Lynne worked as a Complex Care Case Manager and a Commissioning Nurse for the NHS in Continuing Healthcare.

Lynne is an experienced hospital and community Nurse. Lynne has extensive ward experience that includes Critical Care, Multiple Injuries, Rehabilitation, Stroke and Neuro Surgery. The ward roles included working alongside various multi-disciplinary discharge teams to plan complex discharges and arrange ongoing care. Lynne's community experience includes District Nursing and Continuing Healthcare. This has provided Lynne with the invaluable experience of working with patients who have complex long-term care needs and medical requirements that need careful coordination and management. These roles routinely involved working closely with families to ensure the patient needs were comprehensively addressed and a patient centered outcome was achieved.

Working in Continuing Healthcare, Lynne developed specialist knowledge in sourcing and managing large care packages for clients who have sustained life changing injuries. This includes acquired brain injury, spinal cord injury and progressive debilitating disease. Lynne is accustomed to working with a multi-disciplinary team of professionals across the public and private sectors. Lynne has experience of working with both adults and young adults with complex healthcare needs.

Lynne has an excellent working knowledge of the legal process surrounding patients affected by the requirements of the Mental Capacity Act and always puts the needs of the patient first.

In addition to her professional credentials, Lynne has personal experience of the long-term impact and life changing nature of acquired brain injury. An immediate family member sustained such an injury almost 30 years ago and Lynne has continually assisted with providing him with the highest quality of life possible.

AJCM is a specialist brain injury case management service, supporting adults and children to ensure that they achieve effective rehabilitation and quality support.
